# **POWER ASSIST**

### **POWER ASSIST**

ConveyX Solutions, LLC (CXL) Power Assist is an economical option to ease the movement of Powered Flex Conveyors in and out of trailers, reposition for convenient access or return to a storage location.

## STANDARD FEATURES

- Utilizes a single point of contact to maximize maneuverability of the conveyor.
- Bolted and welded construction for ease of installation, maintenance, and durability.
- Works with CXL Powered Flex Conveyor.

- Simple forward/reverse controls.
- Integrated with a Power Flex Conveyor for seamless controls and operation.
- Can be attached/detached from Powered Flex Conveyor to service multiple conveyors and dock doors (tools required).
